

Antibiotic Research UK

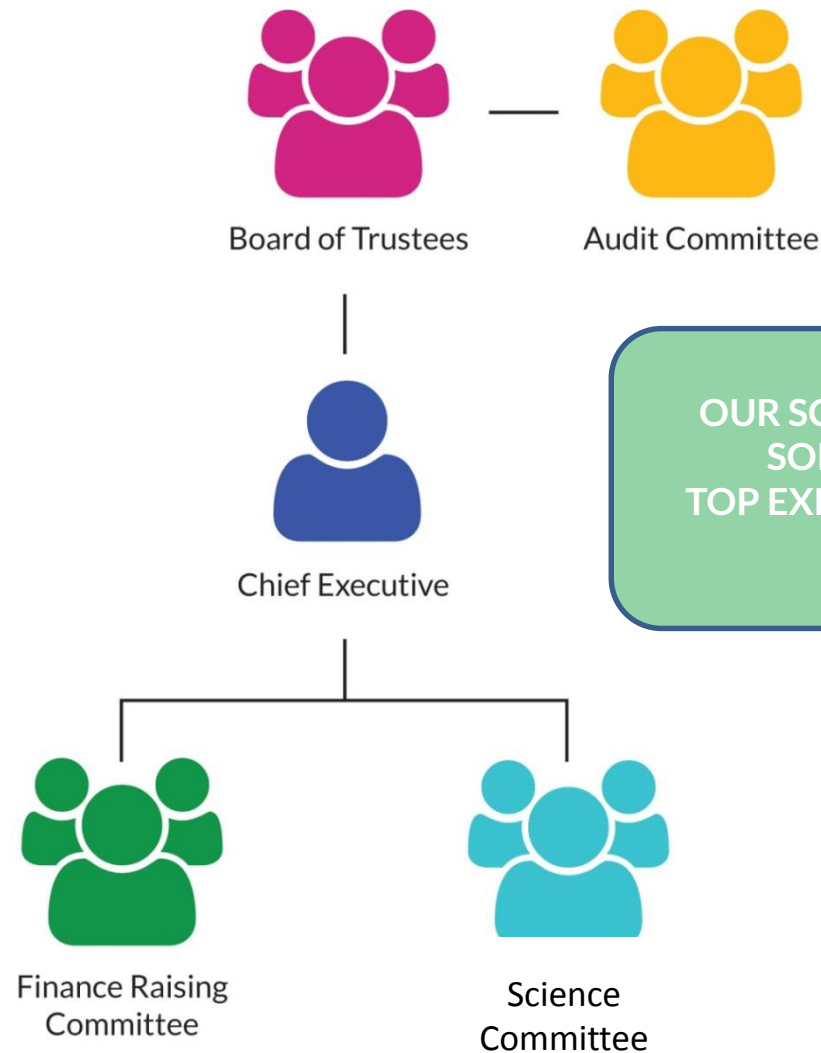

- Formed by a network of internationally recognised AMR scientists and clinicians from top UK universities and specialty pharma companies (ADUK)
- Registered with Charity Commission in July 2014
- Constitution adopted at first AGM held in York in August 2014
- Targeting to bring one new antibiotic therapy into the clinic by early 2020's

Antibiotic Research UK as a charity can help bring stakeholders together in new ways to meet the goal of targeting antibiotic resistance

Charity Organisation
